

# LEGAL ISSUES IN AN EDUCATIONAL ENVIRONMENT

**P**lease join us for this half-day presentation by Brian C. Smith, Attorney, Harben & Hartley, LLP, on the legal rulings that most impact the use of technologies in education today. Harben & Hartley specializes exclusively in public education in the state of Georgia, representing over 100 public school districts and serving as general counsel to the Georgia School Boards Association and as an advisor to the Georgia School Superintendents Association and Georgia Association of Educational Leaders. The following topics will be

covered during this session with time allowed to address and discuss specific questions and concerns from participants.

- Georgia's Child Internet Protection Act and its legal implications for school districts.
- Considerations for developing an acceptable-use policy for students and employees.
- Implications of the Family Educational Rights and Privacy Act on electronically stored information.
- New e-discovery rules in federal court.
